Introduction

We want to offer solutions for writers and artists, spreading art on the Internet.

We want to help the digitization of classic works.

We want to help the world of archeology.

We need to improve to help the world

How to do

We know that not all users use a network for high speed internet connection. Therefore, we offer the solution to save data on consumption and navigation.

Steps

Step 1

We offer the solution to our users to make use of the platform

Step 2

By using the platform, only very cheap fees are charged, which translates into cost savings.

Step 3

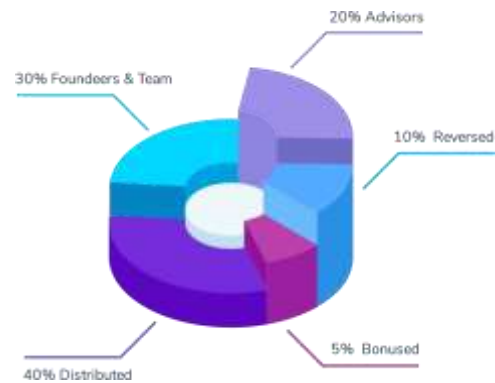

We launched a platform for literary and artistic creation and dissemination.

Tokenomics

How much tokens are in the world

There are only a total of 21,000,000,000 tokens available at a limited launch price of \$ 0.000000294882 each.

Start with the tokens for OF tokens Blockchain

Roadmap

The road to the future

Improving the streaming platforms
